Dear Mr. Westheimer:

I wanted to express my appreciation and thanks for the roof you installed for a building I managed at 9901 Princeton Glendale Road in West Chester, Ohio. This building was over 30 years old and caused us ongoing headaches in responding to our tenants roof leaks problems. First and foremost you installed a roof that was leak free and did so in a manner that was courteous and professional! accommodating our tenant while they operated in the building.

I would recommend you again for any building repairs needed in the future. Thank you again for job well done.

Sincerely,

Leonard B. Murray  
Principal
